

# WORK SMARTER WITH OUR TIMEKEEPING SOLUTION

Accurate time tracking is tough—especially when employees are on the go or working at different sites—which can snowball into budgeting, planning, and billing errors.

If you're using timesheets or a manual process for timekeeping, you're working harder than you should to navigate these challenges. And even if you have a time and attendance system in place, integration with our payroll system, MyFrankCrum, could benefit you greatly.

We're excited to offer you our timekeeping solution powered by UKG (formerly Kronos). Here are a few game-changing features:

## INCREASE PUNCH ACCURACY WITH GEOFENCING

With geofencing, you can pre-set a location and restrict employees from punching in/out when they exceed its radius. This ensures that employees are accurately paid for their time on-site and helps curb time fraud.

## MAINTAIN PROFITABILITY WITH JOB COSTING

UKG allows team members to toggle between job details as they track time, allocating labor costs by project, job, task type, and more. Accurate and timely cost attribution makes on-demand reporting possible and profitability easier to maintain.

## ACCESS FROM ANYWHERE

Gone are the days of punching a physical time clock. Employees can use the UKG mobile app to record and manage time. Punches are even recorded when WIFI connectivity isn't readily available.

## MYFRANKCRUM INTEGRATION

Importing timekeeping data into MyFrankCrum for payroll processing is easy with our UKG integration. Plus, when added to MyFrankCrum, your new hires will be auto replicated in UKG for a seamless setup.
