

When considering a PEO, some prospective customers worry about liability related to workplace injuries of subcontractors or workers who aren't on the PEO payroll.

Unlike other PEOs, FrankCrum has its own workers' comp carrier: Frank Winston Crum Insurance. This distinction allows us to easily and affordably add a Minimum Premium Policy when qualified customers need it, ensuring their workers or subcontractors are covered.

About Our Minimum Premium Policy (MPP)

Streamlined Process

By standardizing rates and eliminating underwriter approval, we've made the process of writing the MPP easy and quick.

Affordable

Pricing is simply based on the minimum premium established by the state.

Client Company As Named Insured

Unlike the WC coverage from a PEO, the client's company is the named insured on the MPP Certificate of Insurance.

Qualifying Criteria & Requirements

- Cannot knowingly employ uninsured subs
- Cannot have sub exposure greater than 30%
- A six-month audit is required with our MPP
