

GET THE COVERAGE YOU AND YOUR EMPLOYEES DESERVE

Did You Know?

7 MILLION

The National Safety Council's recent data shows there are approximately 7 million workplace accidents per year.

99 MILLION

Workplace accidents account for 99 million days of lost productivity per year or 21 days per accident.

Top 3 Reasons Every Small Business Needs Workers' Comp Insurance

1. YOU'RE LIABLE

Work-related injuries are generally excluded from health insurance policies, which means that your business could be liable for huge out-of-pocket sums for medical bills and lost wages when a workplace accident occurs.

2. LOST OPPORTUNITY

You may lose contracts when your competitors are covered, but you aren't.

3. IT'S REQUIRED

Plus, some business types are required by state law to obtain workers' comp coverage.

FrankCrum Has You Covered

FrankCrum is self-insured through its own carrier, Frank Winston Crum Insurance, which allows us to offer great rates and creates advantages like:
